You will need three cups of flour, one-and-a-half teaspoons of baking powder, two hundred grams of butter, one-and-a-half cups of sugar, and one egg. First, mix the flour and baking powder in a bowl. Then, in another bowl, mix the sugar and butter. If you use a blender, it will take less time. Next, add the egg and blend in the mixture from the first bowl. After that, knead it well until you get a soft dough. Finally, use a spoon to put balls of cookie dough onto a baking tray and bake in the oven for ten minutes. You should let the cookies cool for a few minutes before serving.

PS. If you preheat the oven before shaping your dough, you will have better-tasting cookies.
