Answer the questions (3-4) according to the text below.

Hi, I am Jenny. Last week, our teacher gave us homework about how people communicated in the past. I had no idea at first but then, I decided to ask it to my grandfather. We talked about three hours on this subject. He told me really interesting things on the subject. He said it was difficult to keep in touch with friends. Only few people had telephones in their houses. They sent letters to keep in touch with their friends or relatives in different cities. When I heard it, I understood that we are very lucky because we have smartphones and we can communicate with our friends everytime we want.

We don't have to go to a library to do our homework. We can connect to the Internet and search it. If you feel bored, you can talk to your best friends. In my opinion, telephones make our lives easier.
