5.

Today, more than 8 billion people live in the world and approximately more than 5 billion of people use the Internet actively for various reasons. The Internet opens the doors of the world. If you have an Internet connection, you can do a lot of things such as communicating with your friends, doing shopping, playing games, searching for any information or watching movies and many other things. There are a lot of advantages of having an Internet connection but it also has many risks. Today, online safety is important for Internet users. Viruses and hackers are great threats for everybody. For online safety, you should be very careful and you shouldn't open strange mails or share your personal information like telephone number, address or credit card information. Otherwise, hackers can steal your money, important information like pictures and videos in your PC and use them to commit a crime. If you often do online shopping and use your credit card, you should be more careful and should use an anti-virus program in order to prevent these threats.

Which of the following is CORRECT according to the text above?

- A) We shouldn't use the Internet for online shopping.
- B) We shouldn't share our personal information for online safety.
- C) The risks of using the Net are more than the advantages.
- D) Millions of people don't use the Internet because it is risky.
